ÍTALO LEMOS DE FREITAS

IT Support & Process Automation | Node.js, ServiceNow, Networking, Chatbots
Piracicaba, SP | (19) 98367-1358 | italo.lemosdf@hotmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

IT professional with experience in Tier 1/3 technical support, network infrastructure, and automation development. Computer Science undergraduate with hands-on experience supporting users, administering networks, and integrating systems. Developed and maintain a corporate chatbot (Discord, WhatsApp, and NocoDB) that replaced a manual spreadsheet-and-message workflow, preventing lost requests and centralizing urgency triage. It now handles an average of 140–180 tickets and appointments per month.

SKILLS

- Infrastructure & Support: ServiceNow, GLPI/SAT, Windows Server, TCP/IP, DNS, structured cabling, hardware maintenance, Tier 1/3 support
- Development & Automation: JavaScript, Node.js, Java, Python, PHP, HTML/CSS, WordPress, REST APIs, webhooks, Docker
- Data & Databases: SQL Server, MySQL, NoSQL, NocoDB, Power BI (DAX), advanced Excel, VBA, Power Query, SAP Business One

PROFESSIONAL EXPERIENCE

IT Intern | Piracicaba City Council *Dec 2025 – Present*

- Handle an average of 10 technical tickets per week through GLPI/SAT, focusing on networks, hardware, and printers.
- Maintain, assemble, and reimage computers; provide preventive and corrective hardware and software support.

IT Assistant | Cogna Educação / Anhanguera *Sep 2025 – Nov 2026*

- Provide Tier 1 technical support and manage unit-wide service requests through ServiceNow.
- Administer the unit's network and infrastructure, maintain structured cabling, and support the data center.
- Develop and maintain a corporate chatbot (JavaScript/Node.js) integrated with Discord, WhatsApp, and NocoDB, handling an average of 140–180 tickets and appointments per month.
- Replace a manual spreadsheet and WhatsApp workflow, reducing lost requests and centralizing urgency triage and appointments.

IT Intern | Quark Medical *Feb 2024 – Jan 2025*

- Independently maintained an Android application in Java, updating compatibility for newer operating system versions and fixing bugs.
- Provided Tier 1 technical support and maintained IT infrastructure.

Front-End Developer | Freelance *Jan 2023 – Mar 2024*

- Built responsive interfaces (HTML, CSS, JavaScript) and WordPress sites with a focus on UI/UX.
- Integrated databases using PHP and MySQL.

Data Analysis | F G de Freitas Consultoria Ltda. *Apr 2020 – Nov 2022*

- Analyzed databases and strategic indicators; built Power BI dashboards.
- Designed advanced financial spreadsheets in Excel.

SELECTED PROJECT

Corporate Chatbot for Ticket and Appointment Automation

Built with JavaScript, Node.js, NocoDB, Discord, and WhatsApp to manage tickets and appointments, now processing an average of 140–180 requests per month. Replaced a manual spreadsheet and WhatsApp workflow prone to lost requests, centralizing intake, urgency triage, and data synchronization.

EDUCATION

B.S. in Computer Science | UNINTER International University Center | Jan 2024 – Dec 2027

IN PROGRESS

- ITIL 4 Foundation — expected completion: Dec 2026
- CompTIA Network+ — expected completion: Dec 2026
